Subject: City of Albuquerque, 2016 PM10 Exceptional Event Demonstrations

Dwayne, Thank you for the hard copy of the package sent to our Regional Administrator. The package included:

- 1/2/18 cover letter,

- copies public notice records,

- Exceptional Event Demonstration for March 22, 2016 (122 pages, PM10 exceedances on this date at South Valley 35-001-0029 and Jefferson 35-001-0026 site)

- Exceptional Event Demonstration for March 29, 2016 (109 pages, PM10 exceedance on this date at South Valley 35-001-0029)

- Exceptional Event Demonstration for May 6, 2016 (117 pages, PM10 exceedances on this date at South Valley 35-001-0029 and Jefferson 35-001-0026 site)

The package reflects a total of 5 PM10 exceedances measured at 2 sites on 3 separate days. During the public comment period, I copied down electronic searchable versions of the 3 demonstrations. For my day to day review work, I may use the electronic version published on your website, nothing changed from it to hard copy mailed on 1/2/18, correct? It is easier for me to review electronic searchable documents than review an electronic version I convert from scanning of hard copy.

I will be in contact if I have any questions. By Friday April 27, 2018 (120 days), the city of Albuquerque should expect a letter or email that includes a completeness determination or a request for additional information with requested submittal date, if applicable, and an indicator of the timing of the our final review. Thanks
